

McCray Global Protection's Technology Overview

The next few pages will detail the features of our guard management software and the ways in which it enhances the service that we provide to our customers. Our guard management software gives our customers real-time insight into what their security officers are doing while in the field. Detailed reports that can be generated from this software help our customers pinpoint where their largest risk and liability is at a particular location. If you have any questions about our guard management software and its functionality, please feel free to reach out to our Sales team at any time.

Thank you!

How it Works (An Overview of McCray's Software)

While using any Android or Apple mobile device, Officers in the field can:

Report Incidents

Update Daily Activity Reports

Include Photos & Audio Files

Scan Checkpoints

Receive Tasks & Reminders

Communicate with Dispatch

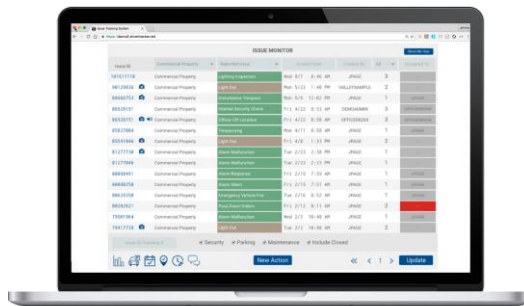

Clock In and Out

Issue Warnings & Violations

All of this information is GPS tracked and available in real time in the Issue Monitor

Dispatchers,
Supervisors & Admins

Maintenance
Teams &
Vendors

Local & Regional
Facility
Managers

Reporting Capabilities of McCray's Software

We use smartphones and tablets with quick and simple drop down reporting menus to streamline our reporting, maximize our on-site visibility, and reduce your risk and liability.

Instead of traditional hand-written reports, our officers are provided various reporting options that enable them to report easily throughout their shift.

- Issue types can be *completely* customized and worded for your industry and specific property.
- At your choosing, any issues or incidents reported can trigger a notification to the necessary parties (i.e. managers, maintenance supervisors or teams, and issue specific vendors).
- All issues are prioritized based on the scope of service at each property and according to your needs.
- The remainder of this presentation will show the types of reports that our software can generate. The types of reports that will be sampled are: Daily Activity Reports (DAR), Incident Reports (IR), and Issue Summary Reports (ISR)

Sample Reports: Daily Activity Report (DAR)

Sample Company Name

Start: Feb 15, 2017 10:32 AM

End: Feb 16, 2017 10:32 AM

Wed Feb 15, 2017 1:05 PM

(S) Property Patrol

121977602

Shopping Plaza
1375 Cherry Hill Road
Location: Property
Unit:

John Doe

(S) Level 3

1:10 PM John Doe - Officer checked the loading dock area for any safety hazards or concerns including obstructions to the loading dock, improper use of the area, fire hazards, or other issues of concern. All issues will be noted under the appropriate issue type.

Wed Feb 15, 2017 1:00 PM

(S) Vehicle Towed

121975466

Shopping Plaza
1375 Cherry Hill Road
Location: Parking Lot
Unit:

John Doe

(S) Level 2

1:00 PM John Doe - Officer called A-to-Z towing company to have a vehicle towed that received 5 previous warnings. Property manager approved the tow over the phone.

Wed Feb 15, 2017 12:37 PM

(S) Vandalism

121975805

Shopping Plaza
1375 Cherry Hill Road
Location: Loading Dock
Unit:

John Doe

(S) Level 1

12:38 PM John Doe - While patrolling the loading dock I found a group of five kids 14-20 years old spray painting one of the dumpsters.

12: 55 PM Alex Smith - After further communication with the officer we learned that seeing the officer on patrol scared away the group of kids. The officer didn't have a chance to speak to the kids before they rode off on their bikes. A full description of the kids will be gathered by the officer as soon as possible.

Wed Feb 15, 2017 12:13 PM

(S) Bike Storage Patrol

121974183

Shopping Plaza
1375 Cherry Hill Road
Location: Orchard Bike Rack
Unit:

John Doe

(S) Level 3

12:30 PM John Doe - Patrolled the bike storage area and found a bike parked outside the cage without a lock. I'll do my best to keep eye on it until the owner comes back.

Wed Feb 15, 2017 12:06 PM

(S) Pass Down/Action Items

121972603

Shopping Plaza
1375 Cherry Hill Road
Location: Property
Unit:

John Doe

(S) Level 3

Reported: Task Description: Your first issue must be posted no later than 10 mins after you clock in for your shift.

***The DAR (Daily Activity Report) is used to provide our customers with a snapshot of what their officers are doing while in the field. Our clients can access this report at any time from a customized client portal or choose to have it automatically delivered to them at a date and time of their choosing.**

myemailaddress@generaldomain.com

Assigned By Bernard Kajila (BKAJLA)
Problem Address 444 Sample Street Los Angeles, CA 90210
Problem Unit 305

Reported Detail (Information reported from a web user, dispatcher, or a system generated note)

Resident in unit 345 called into dispatch to report a noise complaint regarding unit 261. There are reportedly 10-15 people in the unit and spilling out into the walkway with loud music playing and open alcohol containers. Officer is in route to the issue.

Notes (Information reported by an officer in the field or any notes added by authorized users after the issue is created)

Tue 8/9/2016 6:17 PM - Bernard Kajila (G)

When I arrived to unit 261 residents immediately started to disperse. I spoke with Alex and confirmed that he was the owner of the unit. He agreed to shut things down and to keep the noise to a minimum. I told him I would come back by in 30 minutes to check on things. He was very courteous and agreeable.

Tue 8/9/2016 6:17 PM - Bernard Kajila (G)

Tue 8/9/2016 6:17 PM - Bernard Kajila (G)

***An Incident Report is filled out by a security officer whenever something unusual occurs during his/her post. For example, if one of our security officers catches a shoplifter at a retail location and notifies the police, he/she will report the incident using our software. As soon as our security officer reports this incident, our customer is immediately notified.**

All Issues

***An Issue Summary Report provides our customers with a breakdown of the most common types of issues that are occurring at their location(s) within a specified period of time. Many of our retail clients benefit from this report because it allows them to see, for example, a breakdown of how many shoplifting incidents occurred at a particular location in the past month.**
